Planning an Informative Speech

Build a clear message

Name: _____ Group: _____ Date: _____

A. Put the speech in order

Write the letters in the best order: _____ _____ _____ _____

A. To sum up, a measuring tape helps us describe size accurately.

B. First, check which units and markings the tape uses.

C. Today I will explain two useful points about using a measuring tape.

D. Next, record the measurement clearly, including its unit.

B. Choose your topic and audience

My familiar tool or device: _____

My audience: _____

My purpose: To inform my audience about _____

C. Select two main points

Use facts you can verify. Explain rather than persuade people to buy the tool.

Main point	Supporting fact or example
1.	
2.	

D. Plan your visual

Sketch a simple, relevant image or diagram. Add labels that help explain your points.

Planning an Informative Speech

Rehearse, present and improve

Name: _____ Group: _____ Date: _____

E. Make a speaking outline

Use short notes. Prepare an informative talk lasting about two minutes.

Opening: name the topic and give the purpose.

Main point 1

Add a supporting fact or example. Use a signpost such as “First …”.

Main point 2

Add a supporting fact or example. Use “Next …” or “Another point …”.

Conclusion

Summarize your key message.

F. Partner feedback

Rehearse using brief notes and your visual. Tick what you hear and see.

- ☐ A clear purpose and two organized points.
- ☐ Accurate words and a useful visual.
- ☐ An intelligible pace and voice.
- ☐ A clear summary at the end.

G. Use the feedback

Replay a 20-second part of your talk and demonstrate the change.

One strength: _____

One change I will make: _____
