Writing Findings and Recommendations

Separate evidence from action

Name: _____ Group: _____ Date: _____

Practice observation record

A classroom case, not a real inspection. Each tray belongs to one category only.

Observation	Number of trays
No location labels	6
Tools in the wrong compartments	4
Correctly labelled and organized	10
Total checked	20

A. Finding or recommendation?

Write F for a finding and R for a recommendation.

1. Six trays had no location labels. _____
2. Add clear location labels to the six trays. _____
3. Four trays contained tools in the wrong compartments. _____
4. Review storage arrangements and recheck the four trays. _____

B. Keep the language factual

A student writes, “Students are careless.” Does the record support this claim? Explain, then replace it with a factual observation.

C. Link a fact to an action

Observed problem	Suitable recommendation
Six trays have no location labels.	
Four trays have tools in the wrong compartments.	

Writing Findings and Recommendations

Write two focused report sections

Name: _____ Group: _____ Date: _____

D. Findings

Write at least three accurate facts from the record. Use precise figures and neutral language.

E. Recommendations

Write two feasible actions. Link each to a finding.

F. Show the connection

Underline the evidence in your Findings section that supports each recommendation. Ask a partner to check the links.

Peer check

- [ ] The figures match the record.
- [ ] There are no invented causes or motives.
- [ ] Findings describe observations.
- [ ] Recommendations respond to specific findings.
- [ ] Both report sections have clear headings.
